

Our Ethos

CONNECTING CREATORS WITH OPPORTUNITIES

At Serenity we are dedicated to be a **one stop spot** for creators, whether it be **marketing, chatting, content creation, relationship building or going viral**. We help you leverage what you currently have or leverage your skills to grow your socials and income!

Our Team

Our team of 15 staff is continuously growing every day, we have a full **dedicated team towards tailored content creation** to make you go viral.

We have a team of **In-house chatters who are trained to maintain relationships** with your most loyal fans and make you money every day.

Our **marketing teams specialise in multiple different types of social media**, Instagram, Twitter, Snapchat and more. They work around the clock to provide a continuous stream of loyal fans to your Only Fans page.

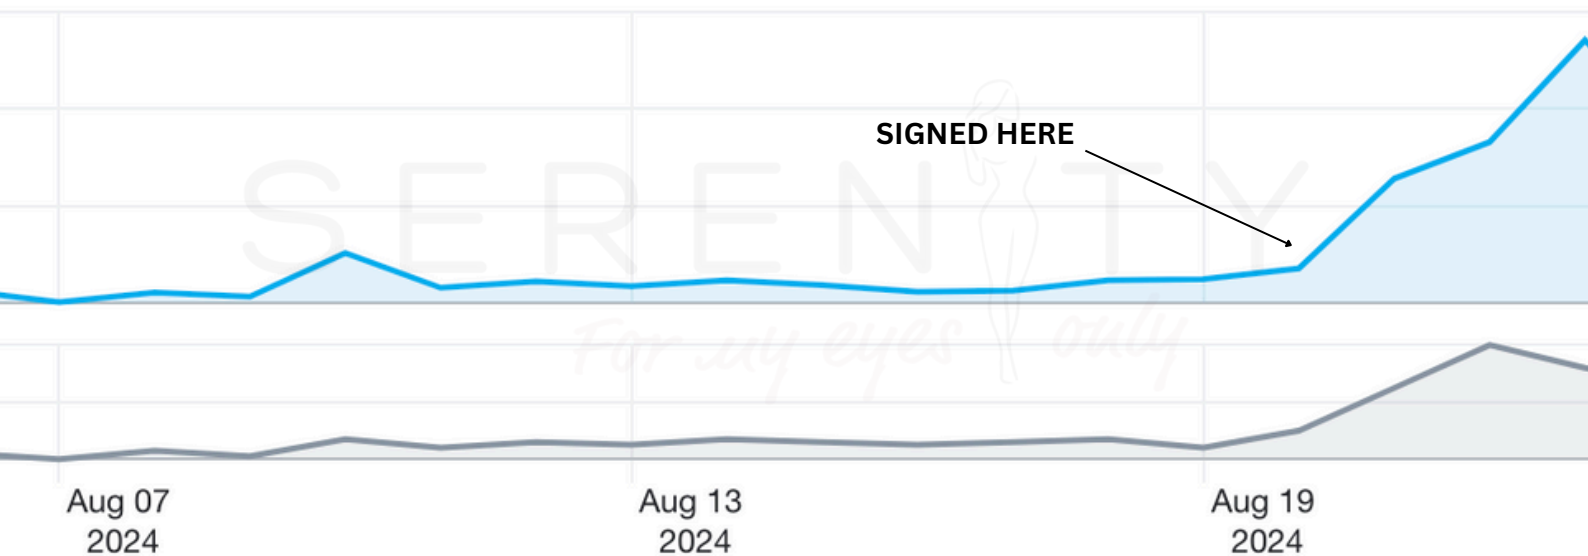

You will also have 24/7 access to an **accounts manager** for any help you need with anything!

Our Results

When a creator starts with us, we tend to **push them into the top percentages of earners in their first month**, this is further supported when the client already has a following and is making money, nevertheless, we enjoy sending a creator from 0 to hero.

At Serenity we **consistently make more in messages and tips than subscriptions across all 8 of our creators**. A testimonial to **our ability to build relationships with fans** and maximise your potential.

WHAT OUR CLIENTS SAY

"Serenity are the people to work with,
they are **super kind** and always **respect**
your boundaries"

Olivia

We LOVE to work with a small group and rarely have spaces for creators, this is because we are **focused on vertically scaling our creators** as opposed to horizontal scaling, we'd rather allocate more resources to you and see you perform than allocate little resources to lots of creators and them not perform.

F&Q's

How much does the service cost?

After we have approved your application we will set up a percentage of revenue based contract, this will be decided based on our costs. We will work with you in order to create the best results, we only make money if you do.

I have no experience on OnlyFans, will I be considered?

Absolutely, while our main focus is existing accounts, we are happy to grow yours with you from scratch, though our performance fees may be higher.

Do I have to create a specific type of content?

At Serenity we leave lots of room for creativity, you will work with your account manager to find a sweet spot for your desired type of content, we want to make sure you are completely comfortable the whole time you work with us.

Our Company

We are a UK based agency registered on companies house, we have a full scalable business model that aims to develop creators from whatever level and whatever background, location or niche.

We require our models to work hard to stay with us, but we are happy to take on 'hobby' creators to make a side income.
